

**National Workshop on  
“Small Molecule Analysis by NMR Spectroscopy & Mass  
Spectrometry”  
12<sup>th</sup> - 14<sup>th</sup> December, 2018**

**Sophisticated Analytical Instrument Facility (SAIF)  
CSIR-Central Drug Research Institute, Lucknow**

**Sponsored by  
Department of Science & Technology  
(Govt. of India)**

Sophisticated Analytical Instrument Facility (SAIF) at CSIR-Central Drug Research Institute, Lucknow has been providing analytical services for the last 40 years and is one of the first four such facilities set up by the **Department of Science & Technology (DST)**, Government of India in mid seventies. The concept of the SAIF at Central Drug Research Institute evolved around the regional needs of scientists and research personnel engaged in the research area of chemical and biological sciences. The sophisticated instruments at the centre have been updated from time to time, keeping pace with the advancement of science & technology and the requirements of the users.

### Objective of Workshop

The proposed workshop will provide an opportunity to experience the state-of-the-art NMR, LC-MS and LC-MS/MS techniques and initiate lively discussion among research scientists, academicians and young researchers to share their knowledge in the frontier areas of chemical sciences. The beginners will get a chance to familiarize themselves with NMR and LC-MS techniques and gain confidence by observing their applications and data interpretation as done in real situation. This Workshop will focus on the structure characterization of small molecules using NMR, LC-MS and MS/MS techniques. **Total number of participants will be 15 only and decided on the basis of their area of interest and first come first serve.**

### Topics to be covered

Basics of NMR Spectroscopy and Mass Spectrometry  
Basic Instrumentation of NMR and MS  
Applications of 1D and 2D NMR, LC-MS and LC-MS/MS techniques and their data interpretation  
Demonstration on instrument (Lab. session) followed by discussion
